Get Ready For Winter No Heat Source On Boats!

Reminders:

- * Do not leave heaters, light bulbs, etc unattended on your boat. These cause boat fires! Only allowed if you are onboard.
- * Electricity to NYC docks may be turned off during winter for repairs, ice storms, nor'easter tides, etc.
- * NYC Service Dept. provides a reasonably priced MONTHLY CHECK service that can be scheduled by contacting laura@nycboat.com
- * Winterize all your boat systems or have it professionally done.
- * If left in the water -Walk around your boat at dock, check for changes to water line & check bilge for water regularly.
- * ICE SLICKS on docks are dangerous. Dock may be slippery even when it does not appear ice covered.
- * Close all seacocks except in cockpit. Check cockpit scuppers to keep draining (remove debris/leaves)
- * Check your dock lines for security & chafe.
- * Check operation of bilge pump regularly. It should even work if battery switch is off. Manually turn on switch to verify the pump comes on.
- * Inspect shore power cord for damage & make sure the battery charger is operating.
- * Look for fuel, oil or coolant leaks.
- * If on boatyard- check that water isn't pooling on deck or in the cockpit. Check boat stands & chains. DO NOT ADJUST-let NYC service dept know if concerned.
- * Store canvas and sails to prevent wear & damage. If leaving sails on boat, secure tightly. Strong winter winds cause sails to open & serious damage to boat.

PRACTICES SOCIAL
DISTANCING**

The fresh air, outdoor beauty and peacefulness of the Chesapeake Bay and Virginia's Rivers has helped many people navigate the difficult time during 2020. Although many boating events were cancelled or rescheduled due to Covid 19 guidelines, recreational boating has been a blessing. Many people new to boating have learned what others have known for years- Boating strengthens family ties.

Chesapeake Yacht Sales broker, Gordon Inge, remains

busy helping people find a boat that makes them happy. Many people have discovered the joy of boating, fishing, sailing, paddle boarding, kayaking because of the unusual 2020 Spring and Summer.

Social Distancing When Boating

Only boat with those in your immediate household.

No beaching your boat right next to someone else.

Maintain your distance at the fuel dock – and remember to wash your hands.

No rafting up – keep your distance on the water.

No guests on your boat!
This includes family members not in your immediate household or your closest boating buddies.

Go right from your house to the boat and back –
no unnecessary contact with anyone.

Enjoy your boat, the water and the fresh air; but enjoy it while boating responsibly.

America Great Loop Cruising Association (AGLCA) held a Virtual FALL Rendezvous that was well attended, including door prizes!

A New Way to Communicate with DYC "TEXT US"

Making it easier to communicate, DYC has recently partnered with KENECT to allow us to send and receive texts associated with helping our customers have fun with boats.

You will see "TEXT US" green link on our web page www.dycboat.com Using it allows you to send quick texts to us on almost any subject. Similarly, we can send you text on boat status, operational questions or other issues we'd like your input on.

Certainly, you can continue to call or send e-mails, we are happy to hear from you by any means. Hopefully this new channel can provide easier communication and improve your 'having fun with boats' experience. ↓
