Get Ready For Winter
No Heat Source On Boats!

Reminders:

★ Do not leave heaters, light bulbs, etc unattended on your boat. These cause boat fires! Only allowed if you are onboard.

★ Electricity to DYC docks may be turned off during winter for repairs, ice storms, nor’eastern tides, etc.

★ DYC Service Dept. provides a reasonably priced MONTHLY CHECK service that can be scheduled by contacting laura@dycboat.com

★ Winterize all your boat systems or have it professionally done.

★ If left in the water - Walk around your boat at dock, check for changes to water line & check bilge for water regularly.

★ ICE SLICKS on docks are dangerous. Dock may be slippery even when it does not appear ice covered.

★ Close all seacocks except in cockpit. Check cockpit scuppers to keep draining (remove debris/leaves)

★ Check your dock lines for security & chafe.

★ Check operation of bilge pump regularly. It should even work if battery switch is off. Manually turn on switch to verify the pump comes on.

★ Inspect shore power cord for damage & make sure the battery charger is operating.

★ Look for fuel, oil or coolant leaks.

★ If on boatyard- check that water isn’t pooling on deck or in the cockpit. Check boat stands & chains. DO NOT ADJUST-let DYC service dept know if concerned.

★ Store canvas and sails to prevent wear & damage. If leaving sails on boat, secure tightly. Strong winter winds cause sails to open & serious damage to boat.

CONTACT DYC SERVICE DEPT. IF WE CAN HELP IN ANY WAY

Boating During Covid 19
Vitamin SEA is Good For You

The fresh air, outdoor beauty and peacefulness of the Chesapeake Bay and Virginia’s Rivers has helped many people navigate the difficult time during 2020. Although many boating events were cancelled or rescheduled due to Covid 19 guidelines, recreational boating has been a blessing. Many people new to boating have learned what others have known for years- Boating strengthens family ties.

Chesapeake Yacht Sales broker, Gordon Inge, remains busy helping people find a boat that makes them happy. Many people have discovered the joy of boating, fishing, sailing, paddle boarding, kayaking because of the unusual 2020 Spring and Summer.

America Great Loop Cruising Association (AGLCA) held a Virtual FALL Rendezvous that was well attended, including door prizes!

A New Way to Communicate with DYC “TEXT US”

Making it easier to communicate, DYC has recently partnered with KENECT to allow us to send and receive texts associated with helping our customers have fun with boats.

You will see “TEXT US” green link on our web page www.dycboat.com Using it allows you to send quick texts to us on almost any subject. Similarly, we can send you text on boat status, operational questions or other issues we’d like your input on.

Certainly, you can continue to call or send em-mails, we are happy to hear from you by any means. Hopefully this new channel can provide easier communication and improve your ‘having fun with boats’ experience.

Charlie Ranger ABYC Master Tech & Virginia State Apprenticeship Completion

Charlie Ranger, Marine Tech at DYC, has been very busy this year upgrading his training to provide excellent service to boaters. Mr. Ranger has maintained his ABYC MASTER TECH CERTIFICATION with updated testing in ABYC Diesel, ABYC Systems and ABYC Electrical Certifications.

Along with his ABYC testing, Charlie also documented 4000 combined hours of coursework and on the job experience to achieve his Va. State Marine Services Technician Journeyman certification. DYC has participated in coordination of Va. State Apprenticeship Program since 2005. “Charlie Ranger continues to go above and beyond as he thinks through each boating service need and communicates carefully with boat owners. We are proud to have him at Deltaville Yachting Center,” Lew Grimm, DYC Owner Manager.
