DYC Boaters Have Beautiful Adventure 30 Countries & Territories in 3 Years

BRUCE & LAUREN V. & FAMILY, LAGOON 38 'VIDORA'

After working on their Lagoon 38 repower and refit with Deltaville Yachting Center Bruce and Lauren V. and family went on a Beautiful Adventure. ↓

The following article was written by Bruce & Lauren V.

After years of talking and dreaming of sailing into the sunset, the day came when it was time to put words into action. In 2014 Bruce, Lauren, with their 2 boys Sam and Luke purchased a boat in Florida with little to no sailing experience. Sam was in college and Luke was only 3 weeks old. They headed down to Florida and found a used charter catamaran that fit most of their needs. She was a 2003 Lagoon 380 and in simply horrible condition, but she was well within budget.

They sailed the boat to Deltaville Yachting Center (DYC), where Bruce and Lauren had met Lew and Onna Grimm and had decided that DYC would be the perfect place to refit the vessel. 1 year later, with new rigging, electronics, diesels, and more, the newly named Vidorra (meaning the good life) was ready to go. DYC provided valuable expertise and assistance throughout the entire refit and Bruce and Lauren were grateful that they found the perfect home for the project.

In October of 2015, the Vanderbilts sold most everything they owned and untied the lines with no plan other than heading south for a year. They liked to say they were on the "No Plan, Plan" because they really didn't know what to expect, especially with being such novice sailors. They didn't know if they'd even make it out of the country but had the

goal of at least seeing the Bahamas.

They pushed south quickly and explored much of the Bahamas including out islands like Conception and Mayaguana. The Vanderbilts were then successful in sailing the thorny path, known as the route between the Bahamas and the Eastern Caribbean, that can be quite rough with an eastern heading that requires boats to plow into seas, against the currents, and against the trade winds with only a few harbors of refuge. By the end of the first year, they had surprised themselves by making it all the way to Grenada for hurricane season.

The first year presented a huge learning curve, with nearly every rookie mistake being made at least once. Landing in Grenada felt like having climbed a mountain, and having finally adjusted to their new way of life, they decided to continue on in the search of new adventures for one more season. They sailed back up the eastern Caribbean enjoying all the islands had to offer.

They cast off from Martinique and explored remote Venezuelan islands, the ABCs (Aruba, Bon Air, Curacao), Colombia, remote areas of Panama including the deepest of the Guna Yala territory and San Blas Islands, on to Providencia, San Andreas, the Caymans, and landing in the Rio Dulce of Guatemala at the start of the 2017 hurricane season.

After a few months of boat work and a visit home, they set out again for a 3rd season to explore Honduras, Belize, Mexico, Cuba, and another round of the Bahamas before sailing back to the United States.

Each year became incrementally better as they learned to sail and live abroad, while building lifelong friendships, and exploring increasingly interesting locations. The Vanderbilts had explored 30 countries and

territories, anchored at 122 different islands, sailed 11,500 nautical miles, made lifelong friends with people from dozens of countries, and witnessed their 1 year old baby grow into a 4 year old salty sailor. The journey exceeded all their expectations and developed a family bond that are beyond words. It was sharing a once in a lifetime adventure where life was amplified as the highs were higher and the lows were lower. It wasn't always easy, but the experience was priceless.

Thanks NYC for helping dreams come true! ↓

Grimm Family Sailing

You Can Relive Your Youth

Lew Grimm arranged an awesome family sailing trip for January, 2020 to share the experience with granddaughters, son in law and daughter in law. Lew, Onna and their son and daughter have sailed the British Virgin Islands several times, each trip with its own memories. With 20 years since the last visit, it was great to slip back to the British Virgin Islands for a wonderful Moorings charter vacation. The 45' Leopard Catamaran was roomy and a fun hub of activities for our family of 8. The take away for all was 'total beauty in paradise!' The BVIs are better than ever and totally open to business following the 2018 hurricanes. Everywhere we went the locals said 'Tell your friends we need them to come!'. ↓

James Morris, Marine Tech Journeyman

Virginia State Apprenticeship Completion

James W. Morris, Marine Technician at Deltaville Yachting Center, completed his Marine Services Technician Journeyman certification. The Va. Apprenticeship Council requires 4000 hours of specific coursework combined with on the job hours. Virginia Apprenticeship Consultant, Delores Ferrell, complimented James Morris for this achievement which took dedication and hard work. DYC has participated in the coordination of apprenticeships since 2005 with an exceptional completion rate. Lew Grimm, Owner Manager DYC commented, "We are very happy for James in this accomplishment. James combines technical skills with great customer service as he helps our boaters have fun with boats." ↓

Social Distancing When Boating

Deltaville Yachting Center and Chesapeake Yacht Sales are working hard to keep boaters and employees safe and healthy. Please join our email list to receive the latest updates regarding Covid 19 guidelines related to boating and visiting Middlesex County. Social Distancing, sanitizing and careful hand washing are being carefully followed. ↓

DYC PRACTICING SOCIAL DISTANCING

Social Distancing When Boating

Only boat with those in your immediate household.

No beaching your boat right next to someone else.

Maintain your distance at the fuel dock – and remember to wash your hands.

No rafting up – keep your distance on the water.

No guests on your boat!
This includes family members not in your immediate household or your closest boating buddies.

Go right from your house to the boat and back –
no unnecessary contact with anyone.

Enjoy your boat, the water and the fresh air; but enjoy it while boating responsibly.
